## EWA STRIKERS PROMISE TO RETURN PROMPTLY RECORD SHIPMENT OF CANNED PINES

### EWA MEN STRIKE; HARVESTING AT AIEA

#### THREE HUNDRED MEN FROM TOWN

Are Working In Fields  
Of the Honolulu  
Plantation

EWA MEN WILL RETURN  
TO WORK ON MONDAY

Strike Situation Quiet—Intimidation Threatened at Waipahu—Merchants Feeling Pinch.

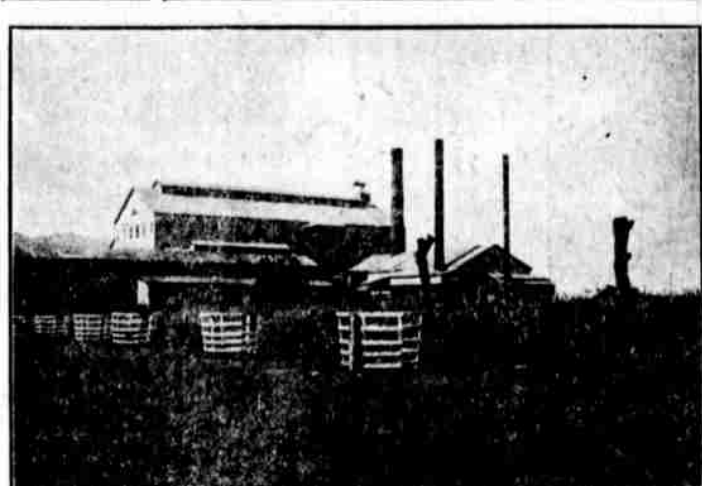

A report comes from Ewa since the noon hour that the Japanese of that plantation will return to work tomorrow morning instead of Monday, as at first stated. This indicates that wiser counsels are prevailing.

Ewa plantation Japanese, with the exception of a few in the outlying section of the property, notified Manager Renton last night that they would not return to work this morning.

They kept their word.

E. D. Tenney, President of Ewa Plantation Co., this noon gave out the following statement of the situation at Ewa.

"Last evening about 8 o'clock a number of Japanese laborers of Ewa Plantation from the Lower Camp, near Honolulu, held a meeting and at 9 o'clock or thereabouts marched to the main village of the Japanese near the mill, where another meeting was held to discuss labor matters in general and whether or not to strike in particular. The meeting at the mill village numbered about 800 men. These men decided that all Japanese should not work today, Friday, or tomorrow, Saturday; that during that period their demands on the management would be formulated; that on Monday they would be

presented to the manager; that on the same day, Monday, the Japanese laborers would return to work, pending an answer from the manager.

"The meeting at the village near the mill was orderly.

"Following out the program as stated above, none of the Japanese at Ewa are working today.

PARIS, May 14.—The number of strikers is decreasing and the general tendency is toward the general success of the government policy resisting the strikers.

### ANOTHER DANCE AT THE SEASIDE TONIGHT

By general request, the management of the Seaside Hotel has been prevailed upon to give another dance this evening. "Sonny" Cunha's glee club made such a hit last night that they have been secured to furnish the dance music for this evening again. Seldom, if ever, has better dance music been rendered. The playing of hulas for two-steps "caught on" immediately. There were many strangers present last night. A special invitation is extended to the officers and ladies on the U. S. A. T. Sheridan and to local Army and Navy officers and their wives, guests of the other hotels, and town society.

Remember that taxes become delinquent after Saturday. The ten per cent penalty may be saved by your paying today.

### CHARLIE AGHI DOES NOT WANT POSITION

Says He Refuses To Be  
Deputy Attorney-  
General

Charlie Aghi denies that he will accept the position of Deputy Attorney General, to fill the vacancy created by the appointment of W. H. Whitney to the bench of the Circuit Court.

"You may state authoritatively," said Charlie this morning, that I will not accept the position. Me, I cannot afford it. I make more money now. Some time I do not make \$200 a month, but other months I make more.

"And I don't want to stay in office from 9 to 12 and from 2 to 4. Now, when I want to go out, I go. Sometimes I go home and stay whole afternoon and look after my chickens. I got about fifty chickens, all to lay eggs for me.

"I don't want any Government position. It is too much work. I want to be independent. Me, I been making my own living now 22 years, and I never held Government office. I don't want to hold any. I can make more money outside, and then, I'm independent. I can do as I please. I will not accept the position."

This puts Attorney General Hemenway in an embarrassing position and he admits that he doesn't know what he will do for a deputy. He has appointed nobody as yet, and there appears to be no prospects.

The case of John Oliver, who was convicted in the District Court of drunkenness, and sentenced to sixty days in jail and to pay a fine of \$1, came before Judge De Bolt this morning on appeal. The Judge found Oliver guilty, but suspended sentence for six months, to give the prisoner a chance to show that he can keep sober when he tries.

### WIND BLOWS DOWN NUUANU FLUME

282 Feet Of Water Way  
Falls During  
Night

Two hundred and eighty-two feet of the flume at the Nuuanu dam which is used to convey the water used for sluicing, was blown down by the wind last night. This will result in delaying the work about three days, according to a statement made by Contractor Whitehouse this morning.

The part of the flume blown down is that on the far side of the dam. Parts of this have been knocked down by the wind twice before, although this is the part most sheltered from the wind.

The accident occurred about ten minutes before quitting time last night; that is, about 5:50 o'clock. The wind usually blows strongly up at the dam, but ordinarily has no effect on the flume. Last night, however, it was coming in gusts, and a sort of whirlwind came down out of the valley. As a result the flume was "happaled" up into the air and then dropped. It squashed like an egg shell.

The flume is now fifty-two feet above the ground, having been raised from time to time as the earth brought down by the water accumulated.

Contractor Whitehouse says that the cost of repairing the damage will not be great. The principal loss will occur from the stopping of the work for three days, and the consequent loss of about 4,000 cubic yards of earth which would have been placed had the flume not blown down.

There is plenty of water for sluicing now and the work is progressing at a rapid rate. The dam, according to Whitehouse, will be completed some time this fall.

### HORSELESS BUGGY FOR MIEHLSTEIN

Gee - Gee Goes Back  
To Kalaupapa  
Settlement

Building - Plumbing - Sanitary Inspector Miehlestein is wondering where he is to alight in regard to transportation. His duties keep him jumping about the city, and he feels that it is up to the Board to supply him with some mode of conveyance. Among the other impedimenta which fell to his lot when he took over the combined jobs of three Territorial officials, was a horse and buggy belonging to the Board of Health. That looked promising, and he began planning to make the rig which came to him in his capacity of

### WHAT BECOMES OF SCHOOL CHILDREN

Supt. Babbitt Gives  
Statistics and His  
Conclusions

#### SHOULD KEEP TRACK OF THOSE LEAVING SCHOOLS

And Share Education So That They Will Be Ready to Grasp Opportunities Offered Them.

Superintendent Babbitt has submitted his report on the occupation of the children who have left the public schools during the year to Hon. S. M. Damon, together with his conclusions as to what should be done towards giving the young people of the islands employment.

The general statement of the situation as obtained from the figures Mr. Babbitt has had compiled was published in the Bulletin a few days ago. Mr. Babbitt's letter to Mr. Damon gives his opinions on the situation. It follows:

Honolulu, Hawaii, May 11, 1909.  
Honorable S. M. Damon, Honolulu.  
Dear Sir:—Herewith I beg to hand you as requested tables showing the number, nationality and sex of children who left various public schools in June, 1908, not to return to same schools, and their present occupations so far as known. These statistics are not entirely accurate but are as nearly so as I have been able to secure. The figures show that 1,534 males and 1,327 females or a total of 2,861 children, left various schools and that of this number 1,729 are attending other territorial schools and 47, mainland schools, or a total of 1,776 still in

### CHOSE JAIL IN LIEU OF FINE

Illicit Distillers Will  
Make Home On  
Reef

The complaints made by the Japanese laborers that they are not making large enough wages does not seem to be borne out by the cases of Ah Lum, Shibata and Otsuka, the first named a Chinese and the two others sons of Nippon. The records of the United States Marshal's office show that during the past 30 days Ah Lum has earned, at common, ordinary labor, the nice little total of \$1230. Shibata has made \$1262.94, while Otsuka by the sweat of his brow has earned \$1229.41.

It is true that the three men did not
